About College

Nagole Institute of Technology and Science has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at NITS is unique; studying here opens a door to a world of opportunities. The college has well-designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

Vision

Our vision is to be one of the nations premier educational institution by achieving the highest order of excellence in teaching and research.

Mission

To serve the state, the nation and the world by producing talented, broadly educated engineers.
To impart quality technical education for students coming from both rural and urban areas.
To strive for student's achievements and success, preparing them for life and leadership.
To enable the students develop their personality to meet the challenges in global environment.

ABOUT DEPARTMENT

Vision

Mechanical Engineering On the trail of an admirable vision relying on the power of technology. Striving for "Leading Edge" setting standards of excellence yet focused on adding quality to human life. We expand the reach of technology and information through innovation and invention.

Mission

Department mission is to create an innovative and knowledge-based society through concurrent teaching practices in mechanical engineering. Its highly qualified and experienced faculty and staff work with dedication and motivation. The department keeps in mind the ever changing challenges of modern day industry and its commitment to produce knowledgeable and responsible mechanical engineers fully aware of the tasks ahead.

About The Program

NDT methods may be divided into conventional and nonconventional. To the first group belong commonly used methods like visual or optical inspection, liquid penetrate testing, magnetic particle testing, eddy current testing, radiographic testing and ultrasonic testing. The second group includes those NDT methods used only for specialized applications like neutron radiography, acoustic emission, infrared testing, microwave techniques, leak testing, holography etc.

CERTIFICATE PROGRAM CONTENTS

- Basic principles of non-destructive testing (NDT)
- NDT methods
- Comparison of different NDT methods
- Finishing processes and related defects
- Heat treatment of steel

Who can Attend

UG, PG Students

Important Dates

Early bird Registration: 13-07-2017

OUT COME OF THE PROGRAM

One week Certificate program on “ Non Destructive Methods On Castings & Weldings ”

From: 20-07-2017 to 26-07-2017

- Able to select an appropriate NDT technique as per requirement.
- Able to set various process parameters and control the NDT process for the desired output parameters.
- Able to find the internal flaws in the material by NDT and take measures to eliminate them.
- Able to solve various problems encountered like leakage, cracks, blowholes etc with the manufacturing process by analyzing the data.
- Shall be competent enough to make use of modern tools and softwares for analyzing and solving real life problems.
- Shall be able to introduce environmental friendly solutions to achieve organizational sustainabilit
