ABOUT DEPARTMENT

Vision

The vision of the ECE Department is to become a nationally and internationally leading department of higher learning, building upon the culture and the values of universal science and contemporary education and a center of research and education generating the knowledge and the technologies which lay the groundwork in shaping the future in the fields of Electronics and Communication engineering

Mission

The mission of the ECE Department is to provide education for those students who are able to compete internationally, able to produce creative solutions to the society's needs, conscious to the universal moral values, adherent to the professional ethical code and to generate and disseminate knowledge and technologies essential to the local and global needs in the field of electronics and communication engineering.

About The Program

An embedded system is a combination of computer hardware and software designed for a specific function. Embedded systems may also function within a larger system. The systems can be programmable or have a fixed functionality. Industrial machines, consumer electronics, agricultural and processing industry devices, automobiles, medical equipment, cameras, digital watches, household appliances, airplanes, vending machines and toys, as well as mobile devices, are possible locations for an embedded system.

CERTIFICATE PROGRAM CONTENTS

- Introduction about the Embedded Systems.
- History of Embedded Systems and Classification of Embedded Systems
- Purpose of Embedded Systems
- Embedded System Design Process Requirements
- Architecture design
- Designing Hardware and Software and Applications of Embedded Systems

About College

Pallavi Engineering College has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at PEC is unique; studying here opens a door to a world of opportunities. The college has well designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

Vision

To emerge as a global leader in imparting quality technical education emphasizing ethical values for the betterment of the society.

Mission

To create an excellent teaching learning environment and inculcate the aptitude for research.

To establish centers of excellence through collaborative Initiatives.

To empower the student community by developing creativity and innovation
