ABOUT DEPARTMENT

Vision

Mechanical Engineering On the trail of an admirable vision relaying on the power of technology. Striving for "Leading Edge", setting standards of excellence yet focused on adding quality to human life; We expand the reach of technology and information through innovation and invention.

Mission

Department mission is to create an innovative and knowledge-based society through concurrent teaching practices in mechanical engineering. Its highly qualified and experienced faculty and staff work with dedication and motivation. The department keeps in mind the ever changing challenges of modern day industry and its commitment to produce knowledgeable and responsible mechanical engineers fully aware of the tasks ahead.

About The Program

The workshop related to the industrial bearings which are simple machine elements but are crucial for motion applications. The purpose of a bearing is to reduce frictional forces between two moving parts by giving a surface something to roll on, rather than slide over.

CERTIFICATE PROGRAM CONTENTS

- Dimensional, form, waviness and roughness measurements of large bearing elements
- Calibration standards and traceability (material measures)
- Measurement and evaluation strategies (sampling density, dynamics, filter types and settings, standards)
