## About College

Pallavi Engineering College has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at PEC is unique; studying here opens a door to a world of opportunities. The college has well designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

## Vision

To emerge as a global leader in imparting quality technical education emphasizing ethical values for the betterment of the society.

## Mission

To create an excellent teaching learning environment and inculcate the aptitude for research.

To establish centers of excellence through collaborative initiatives.

To empower the student community by developing creativity and innovation

## ABOUT DEPARTMENT

### Vision

Training the students to become well-disciplined and knowledgeable in the field of Computer Science and Engineering

### Mission

Department mission is to become pioneer in higher learning and research and to produce creative solutions to societal needs. To provide excellence in education, research, public service. The department has full fledged faculty members with experience in industry and teaching, which leads the students to get employment in the market. The department encourages the faculty members and the students to participate paper presentations, seminars, workshops and National and International conferences

### About The Program

This program aims at providing an opportunity for participants to enrich their knowledge and skill in developing various solutions for solving engineering problems in the society. The Internet of Things (IoT) has evolved from the convergence of wireless technologies, microelectromechanical systems (MEMS) and the Internet. By connecting things in the real world such as cars, buildings, and industrial equipment, IoT promises to revolutionize how we live and work. The IoT market is likely to experience around 18% year-on-year growth, rising to 14.4 billion connections across the globe by 2025, counting cellular, fixed line, satellite and short range wireless connections, up from 27 billion devices in the year 2025

### ONE WEEK CERTIFICATE PROGRAM ON INTERNET OF THINGS(IOT)

From: 13-06-2022 to 18-06-2022

### CURRICULAM OF THE PROGRAM

- Emerging Trends in Computing: IOT, Edge, Fog, Cloud -Computing and Deep Learning Towards an Application in Intelligent Transport System (ITS)
- Introduction to IOT and its Protocols
- Introduction to Hardware Platform for IOT
- Getting Started with IOT Programming Concept
- State-of- art IOT Architectures, Communication Technologies and Applications
- Routing in IOT Network using MQTT Protocol
- Data Science
- Mathematical, algorithmic & distributed systems techniques
- State of the Art Research in IOTs
- Demonstration on some practical application of IOTs
- MICEF(Mist, IOT, Cloud, Edge and Fog Computing) with hand on simulation using Cloudsim Simulator
- Annual demand for the fast-growing new roles of Internet of Things.
