### About College

Pallavi Engineering College has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at PEC is unique; studying here opens a door to a world of opportunities. The college has well designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

### Vision

To emerge as a global leader in imparting quality technical education emphasizing ethical values for the betterment of the society.

### Mission

To create an excellent teaching learning environment and inculcate the aptitude for research.

To establish centers of excellence through collaborative Initiatives.

To empower the student community by developing creativity and innovation

### ABOUT DEPARTMENT

#### Vision

Training the students to become well-disciplined and knowledgeable in the field of Computer Science and Engineering

#### Mission

Department mission is to become pioneer in higher learning and research and to produce creative solutions to societal needs. To provide excellence in education, research, public service. The department has full fledged faculty members with experience in industry and teaching, which leads the students to get employment in the market. The department encourages the faculty members and the students to participate paper presentations, seminars, workshops and National and International conferences

#### About The Program

The goal of Python program to get participants up and running with Python programming skills in as short a time as possible. Participants will learn the basics of writing and running Python scripts. This Python program provides practical, foundation level training that enables immediate and effective participation in Python projects. The Python program provides grounding in basic and advanced programming methods and an introduction to Machine Learning technology and tools. The extensive lab sessions provide many opportunities for participants to apply these methods and tools to real-world business challenges as a practicing Python script developer. The Python program takes an "open" or "technology-neutral" approach, and includes a final lab in which Participants address a Python challenge by applying the concepts taught in the Python
