## ABOUT COLLEGE:

Pallavi Engineering College has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at NITS is unique; studying here opens a door to a world of opportunities. The college has well-designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

### Vision:

Our vision is to be one of the nations premier educational institution by achieving the highest order of excellence in teaching and research.

### Mission:

To serve the state, the nation and the world by producing talented, broadly educated engineers.

To impart quality technical education for students coming from both rural and urban areas.

To strive for student's achievements and success, preparing them for life and leadership.

To enable the students develop their personality to meet the challenges in global environment.

Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on One-day Workshop on Research Methodology in Mobile Communication.</p> <p>The coordinator has handed over the session to the speaker and he delivered his lecture on the given topic Mobile Communication is the use of technology that allows us to communicate with others in different locations without the use of any physical connection (wires or cables). Mobile communication makes our life easier, and it saves time and effort. A mobile phone (also called mobile cellular network, cell phone or hand phone) is an example of mobile communication (wireless communication). It is an electric device used for full duplex two way radio telecommunication over a cellular network of base stations known as cell site.</p>

## ABOUT COLLEGE:

Pallavi Engineering College has a sprawling campus and is well connected by road and easily accessible by both college and RTC buses. It has the unique advantage of being located in the heart of the city. It is situated 5 km from Nagole cross roads and 3 km from Hayathnagar. It is free from pollution and the hustle and bustle of the city. The experience at NITS is unique; studying here opens a door to a world of opportunities. The college has well-designed, adequately furnished, ventilated and spacious classrooms. All the laboratories of Engineering and Sciences are well equipped with latest and sophisticated gadgets.

### Vision:

Our vision is to be one of the nations premier educational institution by achieving the highest order of excellence in teaching and research.

### Mission:

To serve the state, the nation and the world by producing talented, broadly educated engineers.

To impart quality technical education for students coming from both rural and urban areas.

To strive for student's achievements and success, preparing them for life and leadership.

To enable the students develop their personality to meet the challenges in global environment.

## EVENT REPORT

Name of the Activity	<b>Importance of Funding Project</b>
Type of Activity	Seminar
Date and Time of Activity	10-03-2020                      10:30 AM to 1:30 PM
Details of Participants	55
Resource Person	Dr.Durga Prasad Reddy Professor-MBA, CMR Institute of Technology, Hyderabad.
Coordinators	M Mallesham, Asst.Professor/ EEE
Organizing dept.	R&D Cell
Description	<p>The speaker for guest lecture has been warm welcomed to the session on behalf of Pallavi Engineering College by the Coordinator and he has given a brief introduction about the speaker achievements and experience and Principal too welcomed him for the session on behalf of the college. The speaker took over the session and delivered a lecture on "Importance of Funding Projects". He explained that the project should be practical, not too costly, and have the potential for being repeated in other situations. A project proposal emphasizes the impact the activity will have. Evaluation is more on the field, usually more important in project proposals. The title is important. It should reflect the focus of your project. The most important words should come first. Avoid words that add nothing to a reader's understanding such as Studies Investigations. Budgets are developed according to sponsors and university guidelines. This section is an overview of common features. Depending on complexity, the budget section may require not only a tabular budget with line items, but may also require a budget summary and explanation or (budget justification or budget notes). Finally, he said that getting the funding for any project will be an added advantage for the college, department and even for the faculties and students.</p>

## EVENT REPORT

Name of the Activity	<b>Writing a Research Article</b>
Type of Activity	Seminar
Date and Time of Activity	12-04-2019 10:30 AM to 01:30 PM
Details of Participants	52
Resource Person	Dr. N. Sravanthi Professor, Maturi Venkata Subba Rao Engineering College Hyderabad.
Coordinators	M Priyamvadha, Assistant Professor /Civil
Organizing dept.	R&D Cell
Description	<p>The speaker for guest lecture has been invited to the session on behalf of Pallavi Engineering college. The Coordinator has given a brief introduction about the speaker achievements and experience and principal welcomed him for the session on behalf the college. The speaker took over the session and delivered a lecture on Writing a Research Article. The Speaker has initiated the program for the students by telling the importance of writing a quality Research Paper. General structure for writing an academic journal article: The title of your article is one of the first indicators readers will get of your research and concepts, Keywords, Abstract, Acknowledgements, Introduction, Main Body, Conclusion, References and Citations. Steps to publish your research paper:</p> <p>Step 1: Choosing a journal. Step 2: Writing your paper. Step 3: Making your submission. COORDINATOR Step 4: Navigating the peer review process. Step 5: The production process. If your paper is accepted for publication, it will then head into production. Can anyone publish a research paper? In theory, yes. There are no requirements that an author needs to have an academic title or education. Neither does one have to be affiliated to a university or other form or research institute. Finally she spoke regarding publishing in Scopus? The vast majority of researchers still believe that getting their papers published in Scopus journals is easy and does not require much effort. Such people more often than not, learn the hard way that this is not so. The Coordinator acknowledged the speaker and the session concluded with vote of thanks.</p>
