2) ICT facilities:

ICT facilities: No of Classroom/ Lecturer Halls / Lecturer Halls and Seminar Halls with ICT - enabled facilities such as Smart Class, LMS, etc as follows:

Use of ICT enabled techniques by the faculty

The institution is constantly intended to boost involvement of technology based pedagogical techniques and tools to make teaching-learning more student-centric. In the institute teachers use ICT enabled devices, e-learning resources, online video lectures for effective and student-centric teaching and learning.

College has established e-Classroom/ Lecturer Halls with adequate infrastructure like interactive projectors, internet connectivity through LAN and Wi-fi, computers, white boards, acoustic/audio system and facilities to boost ICT enabled teaching-learning methods for learners. The teachers as well as learners are not only encouraged to use regularly but familiarized and trained periodically also with new ICT tools.

Google Classroom/ Lecturer Halls, Google meet, Webex and Zoom has been widely used e-platforms during Pandemic in the institution to carry out academic activities. Assignments, unit tests were conducted on Google Classroom/ Lecturer Hall. Study material was shared and online live lectures were conducted on the same platforms during Pandemic.

The regular use of ICT techniques in teaching-learning has made teaching-learning process lively, usual, student-centric and conscious. It is observed that students reflect in a very positive manner towards education when they are using e-resources to complete tasks given to them. ICT tools inspire and encourage them to achieve their objective.

Use of E-Classroom/ Lecturer Hall and ICT enabled infrastructure for better understanding of subjects of interest:

The institution has installed E-classrooms/Lecturer Hall, which are well equipped with modern tools for ICT such as computers, internet, wi-fi connectivity, interactive projectors, software's, etc. These E-Classrooms/Lecturer Halls are used regularly by the faculty members. In addition, these are also used to conduct interactive sessions of the subject experts to provide ICT enabled teaching-learning.

CLASS ROOM with state-of-the-art ICT facilities
